## ANNOUNCEMENT.

**W**E take pleasure in presenting you this, our number SEVEN Catalogue of RANNO HARNESS.

In its preparation we have spared neither time nor expense in giving our patrons illustrations that will show every detail, as each cut is an exact reproduction from photographs taken in our own plant.

In our many years of experience we have made a careful study of the wants of the horse owner, and feel safe in saying that our present line of harness is second to none in **STYLE, WORKMANSHIP, and DURABILITY.**

We use nothing but the very best **OAK LEATHER** and employ only skilled labor, and for that reason think we have a right to claim the superiority of **RANNO HARNESS.**

**MAIL ORDERS A SPECIALTY**—We have taken great pains in preparing this Catalogue to make everything very plain so as to enable our patrons to make their selections intelligently without the aid of a salesman.

All orders mailed us will receive our immediate and careful attention.

Thanking our many customers for their liberal patronage in the past, we hope by strict attention to their wants to merit a continuance of the same.

Yours truly,

**RANNO SADDLERY CO.**
